OFFICE AND WORKS:

West Tenth Street,

ERIE, PENN'A.

Herald, Erie, Pa.

. . . THE . . .

WORLD'S FAIR,

CHICAGO, 1893,

Granted us the following awards on our exhibit of

CAST IRON HOLLOW WARE,

Polished and Nickel Plated.

STOVE FURNITURE,

HOUSE FURNISHING GOODS.

. . . AWARDS . . .

HOLLOW WARE—Fine in quality and Smooth in finish in both the polished and nickel plated ware.

(Signed) DR. STOCKBAUER,
Individual Judge.

HOUSE FURNISHING GOODS—Excellent quality and lightness of the castings, neatness of form and adaptability for which the articles are designed. They are finely finished, well polished and nickeled, and show uniform good work.

(Signed) JOHN C. CARPENTER,
Individual Judge.

Approved:
JOHN BOYD THACHER,
Chairman Com. on Awards.

To the Trade.

DISCOUNT sheet for this Catalogue, superseding all our old catalogues and discounts, furnished on application. . . . . .

Stove Manufacturers having voluntarily endorsed the "**Erie**" Hollow-ware as the finest in the world, we shall endeavor to deserve a continuance of the endorsement by not only keeping up the present standard, but adding any new improvements in design and finish that will be beneficial to the ware. . . . .

Every piece is examined by five different inspectors, thus insuring perfect work in each department. . . . . .

All goods except Pots, Kettles and Tea Kettles, packed in barrels with kiln-dried sawdust. . . . . .

No charges for packages or drayage. . . .

Highly appreciating your patronage, and soliciting a continuance of the same, we are,

Yours very respectfully,

. . . . Griswold Mfg. Co.

. . . TERMS. . . .

. . . . . .

Hollow-Ware and Stove Furniture, 60 days or 2 per cent. discount for cash if paid within 10 days from date of invoice.

. . . . .

Job work, net cash, f. o. b. cars Erie.

. . . . .

All bills payable in New York par funds, without allowance for exchange or express charges.

. . . . .

No freight allowance on shipments weighing *less* than 200 *pounds*. Positively no deviation from this rule.

. . . . .

After goods are shipped in good order our liability ceases, and we cannot allow any claims for breakage or other damages in transit.

. . . . .

Claims for errors or deficiencies will not be entertained unless made within FIVE DAYS after receipt of goods.

"ERIE"

ALUMINUM WARE.

TO THE TRADE.

IT is with pleasure that we offer to the trade our new line of Cast Aluminum Ware. The marked popularity with which our Stove Ware has been received by the trade, make us feel certain that our new pieces for the table will meet with even a more enthusiastic reception. We shall continue to add to this line many more new articles of new and useful design for both Stove and Table use. Each piece is thoroughly inspected and guaranteed perfect in every detail. The workmanship and finish of these goods is endorsed by Aluminum manufacturers as the finest made.

Thanking our many friends and patrons of the "Erie" Cast Aluminum Ware for past favors and hoping that our new goods will deserve the same endorsement, we are,

Yours very respectfully,

GRISWOLD MFG. CO.

"ERIE"

ALUMINUM WARE.

A FEW reasons why the "Erie" Cast Aluminum Ware is far superior to any other ware on the market:

Each piece is cast solid in one piece, leaving no seams or joints to leak.

Being cast, it is strong and stiff and will last forever, while thin stamped aluminum ware warps and becomes soft after being heated.

Aluminum as a metal leads for cooking utensils, and the "Erie" ware being cast thick obtains all its superior qualities.

For neatness of design our goods cannot be equalled, and for finish they are not surpassed by any goods, being polished and finished in every detail as fine as silver.

It does not tarnish and can be kept bright by cleaning same as silverware.

Being solid, without plating, it can be handsomely marked with name or monogram.

"ERIE"

ALUMINUM WARE.

ALUMINUM CASTINGS.

We are prepared to furnish Aluminum Castings of any description to order.

The Greatest Novelty for Salesmen's Samples, Models, Patterns and many other uses.

Aluminum is three times lighter than iron, and three and one-half times lighter than copper.

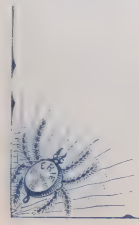
The shrinkage of Aluminum is 17–64 of an inch to the foot, a little more than that of brass.

We guarantee to furnish sound castings, free from any imperfections.

Orders executed promptly.

Prices and estimates furnished on application.

Correspondence solicited.



"ERIE"

CAST ALUMINUM.

COFFEE POT.

LIST.

2 quart	$ 2 85
3 "	3 00
4 "	3 35

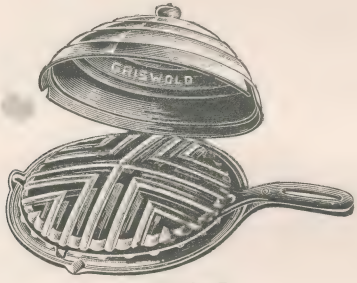
Erie Double Broiler.



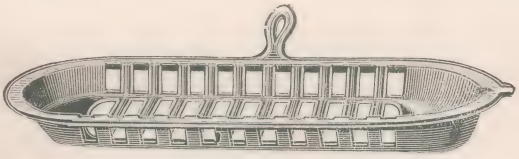
PATENTED.

Sectional View of Ribs.

With Cover..... $ 75
Without Cover..... 50

This Broiler is so constructed that the ribs of the upper half come directly over the spaces of the lower, as shown in sectional view. This prevents the dripping of grease on the fire, thus making the best Broiler on the market, especially for Gas or Gasoline Stoves.

Long Broiler.



EXTRA SMOOTH LIGHT CASTINGS.

No. 7	$ 70
" 8	80
" 9	1 00

Round Broiler.

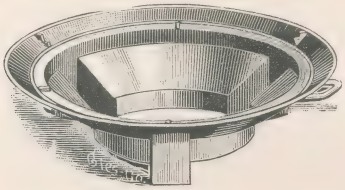
For Gasoline and Oil Stoves.

EXTRA SMOOTH LIGHT CASTING.

With Cover	$ 60
Without Cover	36

The cover furnished with this broiler is the same as shown on preceding page.

Gasoline Stove-Ware Adjuster.



PATENTED.

Plain Smooth Casting.

No. 8, for No. 7, 8 or 9 Ware.....$ 70

Specially adapted to fit all size round bottom ware, and round Waffle Irons on Gasoline and Oil Stoves. Also equalizes and retains the heat under all cooking utensils.

"ERIE" WARE.

FULL NICKEL FINISH.

Our Nickel Plated Ware received Highest Awards at World's Fair for its fine polish and plating. See page 2.

Indorsed by the trade the Finest Full Nickel Plated Ware ever made. Each piece wrapped in paper.

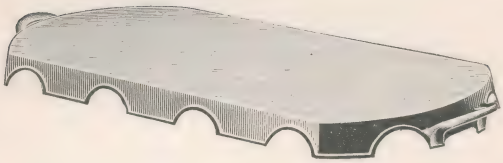
French Griddle.



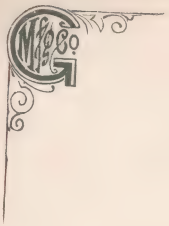
LIST.

No. 8..... .....\$3 50 Each

" 9..... 4 50 "

This Griddle is made $\frac{3}{8}$ of an inch thick, thereby retaining the heat and baking a beautiful brown. Highly polished by hand, as fine as nickel work. Used on our special Gas Stove.

Smooth, straight castings; no gate marks or imperfections.



The "ERIE" Gem Pans

Are noted for their

Extra Fine, Smooth Castings.

The process by which these pans are made *not only avoids* rough bottoms, caused by gate marks running across the pan, but also leaves the casting inside very smooth, and as this is essential in removing cakes easily after baking, these Pans have met with a large sale among the first-class trade.

RECIPE FOR

Graham, Vienna and Breakfast Rolls.

One quart white or Graham flour, one pint sweet milk, three teaspoonfuls baking powder, add or omit two eggs at pleasure. Drop the batter in a *hot pan* and bake in a quick oven.

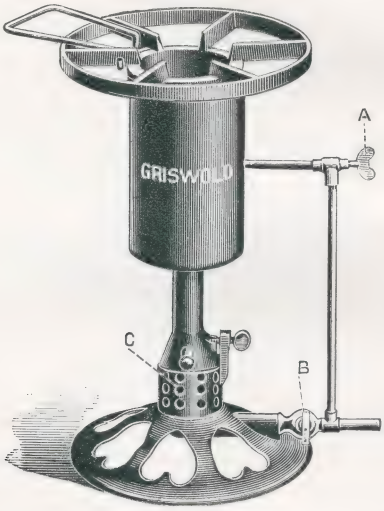
Gas Blast Forge.



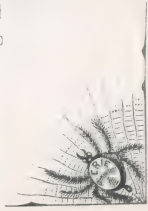
LIST PRICE.

Each.....$3 00

When ordering, state if for Natural or Manufactured Gas

For Heating Solder Irons, Melting Babbitt, Annealing and Tempering Metal and Tools, Melting Glue, etc., etc. Indispensable for the Pattern Shop, Machine Shop, Factory uses. The construction of the Forge gives an intense heat, like a blow-pipe. OUT AIR BLAST.

See description on next page.



Description of Forge.

The working of this little Forge is simply wonderful. By the construction of the burner the gas is taken at the base, but only burns at the top of the chimney with a most intense heat. This is accomplished without any outside air blast. This feature adapts it for Plumbers or any shop where there is no power, also in large plants when shut down for repairs. For the Pattern Shop and Tin Shop it has no equal. It will heat the largest solder iron QUICKER than any heater made. To light the forge, turn the key (B), and hold a lighted match at the top of the chimney. After the forge is lighted, open the key (A) on the lighter pipe, so that a small flame burns inside the chimney at the end of the small pipe. When the soldering iron or other iron is hot, close the key (B) entirely; when it is next wanted, open the key (B), and the forge is immediately lighted by the small flame on the lighter. This saves gas, saves heating the room in hot weather. It only burns just when wanted, and is most simple to operate. Can be used for natural or manufactured gas. By turning the chimney so as to close the holes at the base (C) the Blast pressure is regulated. We guarantee it will do all we claim and more.
